

Dear Marla Stein
I appreciate all you
had done to make my case.

For some reason I knew
it wasn't going to happen.

Shame on Dr Reich for
accusing me of wanting
the surgery on my left
eye. The floaters didn't
bother me. I thought
having the cataract remove
from my right eye was
to improve my vision
which it didn't. My vision
became blurry. Knowing

That the anesthesia didn't take on my left eye he still continue with the surgery. Not only did I feel the laser but also the burning of the liquid he poured into my left eye. Still he continue with the surgery. I was honest with everything that has happened. I just want to Thank you for taking the time to hear my situation and for that I'm grateful. Carmer Kun
